1. The first part of the paper is devoted to a discussion of the general principles of the theory of the structure of the atom.

2. The second part of the paper is devoted to a discussion of the general principles of the theory of the structure of the atom.

3. The third part of the paper is devoted to a discussion of the general principles of the theory of the structure of the atom.

4. The fourth part of the paper is devoted to a discussion of the general principles of the theory of the structure of the atom.

5. The fifth part of the paper is devoted to a discussion of the general principles of the theory of the structure of the atom.

6. The sixth part of the paper is devoted to a discussion of the general principles of the theory of the structure of the atom.

7. The seventh part of the paper is devoted to a discussion of the general principles of the theory of the structure of the atom.

8. The eighth part of the paper is devoted to a discussion of the general principles of the theory of the structure of the atom.

9. The ninth part of the paper is devoted to a discussion of the general principles of the theory of the structure of the atom.

10. The tenth part of the paper is devoted to a discussion of the general principles of the theory of the structure of the atom.

11. The eleventh part of the paper is devoted to a discussion of the general principles of the theory of the structure of the atom.

12. The twelfth part of the paper is devoted to a discussion of the general principles of the theory of the structure of the atom.

13. The thirteenth part of the paper is devoted to a discussion of the general principles of the theory of the structure of the atom.

14. The fourteenth part of the paper is devoted to a discussion of the general principles of the theory of the structure of the atom.

15. The fifteenth part of the paper is devoted to a discussion of the general principles of the theory of the structure of the atom.

III - Water Supply.

The source of supply is drawn from the town mains, both for the use of the port and shipping entering. No Water Boats are in use.

IV - Port Health Regulations 1933 and 1945.

The arrangements as detailed in previous reports remain unchanged.

TABLE C.

Cases of Infectious Sickness landed from
vessels.

N I L.

TABLE D.

Cases of infectious sickness during voyage
but disposed of prior to arrival.

N I L.

V - Measures against Rodents.

Periodic inspection and treatment is carried out by the Rodent Operator of the Local Authority. Wharves, stores etc. in the vicinity of the Harbour are all dealt with.

Since the operation of the Prevention of Damage by Pests (Application to Shipping) Order, it has not been found necessary to issue any certificates under this Order.

Consultations with the Harbour Authorities have taken place and full co-operation is assured.

VI - Hygiene of Crews Spaces.

TABLE J.

Classification of Nuisances.

Nationality of vessel.	No. inspected during year.	Defects of original construction.	Structural defects through wear & tear.	Dirt, vermin and other conditions prejudicial to health.
British	-	-	-	-
Other nations	10	-	-	-

VII - Food Inspection.

No food is imported into the port. The Pegwell Bay Shellfish Regulations are still in operation.

J. M. Cargill

Medical Officer of Health.
